

April 1<sup>st</sup>, 2020

Dear Valued Customer,

As recently mandated by the Governor of California, Delta Fremont will be extending the Operations closure of our facility through 5/03/2020.

We will be requesting “precise” demand planning within the next few days to support “essential” required shipments for your customers so we can work with our Logistics and Warehouse operations to ensure we are able to deliver product during our allowed scaled back warehouse operations during this time.

- **Drop Ship Restrictions:** Freight Forwarder/Air Requests: International flights have decreased from China and medical supply related product are being prioritized so at this time and if requested we will follow-up and cannot guarantee consolidated Air lead times or freight forwarder requests.
- **Standard Consolidated Air Quote Requests:** Requests for Air freight will be subject to an increase in cost/lb.

Updates will be provided should there be any changes to our extended mandate and we ask that all applicable employees within your organization are made aware of this.

Best regards,

A handwritten signature in black ink, appearing to be 'Alex Lee', written over a horizontal line.

Alex Lee

Vice President/FMBG
